# Safeguard Supply

Installation Instructions

We recommend a certified electrical install the wired doorbell push button. prior to installing push button, turn off power to the wired push button. After installation, turn power back on.

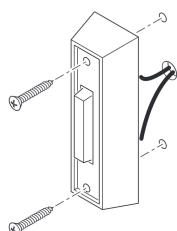

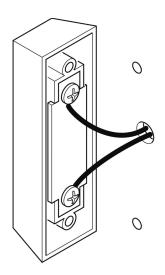

Remove existing push button. To the left is a push circular push button that recesses into the wall. To the right is a surface mounted push button.
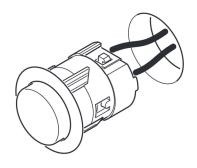

User a screwdriver to remove wires mounted to existing push button.

Connect wires from wall to push button screw terminals. *Note:* It does not matter which wire is connected to which screw.

Attach push button to wall with screws provided (if applicable).
